*BR*

inspecting the position of the fiber accommodating hole with respect to the first guide projection and the guide hole based on the determined positions of the positioning hole and the fiber accommodating hole.

---

**REMARKS**

Entry of the present Amendment and Remarks, prior to initial examination, is respectfully solicited. The present Amendment cancels claims 1 through 14, places claims 15, 16, 17, 25 and 26 in independent form, and corrects the dependency of claims 18, 20 and 21. The present Amendment also incorporates the preliminary amendments as filed in parent application Serial No. 09/509,953.

Respectfully submitted,

MCDERMOTT, WILL & EMERY
